Introduction

The purpose of this document is to provide the test scripts along with the results and overall summary of the functional testing for phase 2 of NASA EVA gamification project. Phase 2 of the project includes configuring points, badges and a leaderboard for users.

Test Summary

The test cases for functional testing of phase two of the NASA EVA gamification project are created to ensure that the functionalities of the new features including points, badge, and leaderboard are functional and created as specified. The planned test cases for Functional testing have been executed and passed. Two issues were found during testing. An extra badge legend table was appearing on the page, but this was not included in the requirement specification document. The second issue was that a confusing message was appearing when user has not earned any points yet. Both issues have been resolved. The badge legend table has been removed from the user interface; More user friendly and clear message such as "No data found" has been added in the user gamification profile page when user has not earned any points or badge. Both changes have been validated by QA lead. Currently there is no concern related to the functionalities of points, badge, and leadership features.

1.0 Test Suite 01: Point Configurations Based on Adding or Editing a Page

Following Test Cases should be executed to test all functional requirements associated with Point Assignment System feature

1.1 Test Case TC_01.1: User earns 100 points upon creating a page

Test Case ID: TC_01.1
Description: Test that if user creates a page, then the user earns 100 points
Requirements: F41 - A user will be given points for creating a new wiki page
F43 - Users shall earn 100 points when a page is created.
Tester's Name: Samia Alam
Prerequisites: User is already logged into the NASA Wiki account. Main page does not exist yet. If it does, delete it from the page and revision table before testing.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Login to NASA MediaWiki page		Nasa default page appears	Nasa default page appears	Pass	
2	Click on the Create button		Editable blank page appears	Editable blank page appears	Pass	
3	Add a subject and one or more text line in the blank field, and click Save Page button in bottom of the page		Main page is created	Main page is created	Pass	
4	Click on Special page under tools		Special page appears	Special page appears	Pass	
5	Click on User gamification profile under Other spacial pages section		User Gamification Profile appears	User Gamification Profile appears	Pass	
6	Observe the point counts on top of the User gamification Profile page		100 points are added to the user upon creating a page.	100 points are added to the user upon creating a page.	Pass	

1.2 Test Case TC_01.2: User earns 50 points upon editing a page

Test Case ID: TC_01.2
Description: Test that if user edits a page, then the user earns 50 points
Requirements: F42 - A user will be given points for editing an existing wiki page
　　　　　　　　F44 - Users shall earn 50 points when a page is edited.
Tester's Name: Samia Alam
Prerequisites: User is already logged into the NASA Wiki account and in the default main page upon logging in.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	Main Page appears	Pass	
2	Click on the edit link on the top menu		Editing Main Page appears	Editing Main Page appears	Pass	
3	Update a text line in the edit field, and click Save Page button in bottom of the page		Edit is saved, and the change is visible in the main page	Edit is saved, and the change is visible in the main page	Pass	
4	Click on Special page under tools		Special page appears	Special page appears	Pass	
5	Click on User gamification profile under Other spacial pages section		User Gamification Profile appears	User Gamification Profile appears	Pass	
6	Observe the point counts on top of the User gamification Profile page		50 points are added to the user upon editing a page.	50 points are added to the user upon editing a page.	Pass	

2.0 Test Suite 02: Badge Configurations

Following Test Cases should be executed to test all functional requirements associated with Badge Configuration feature.

2.1 Test Case TC_02.1: User with 50 total points earns a bronze badge

Test Case ID: TC_02.1
Description: Test that if user with 50 total points earns a bronze badge
Requirements: F37 - A user will progress through different badge levels by earning a configurable amount of points
F38 - A user will earn badges in the following order: Bronze, Silver, Gold, Platinum
F45 - A user with 50 total points shall earn a bronze badge.
Tester's Name: Kelli Corey
Prerequisites:

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Log in to the NASA MediaWiki environment using a profile that has not collected any points yet.		The welcome page will be displayed.	Main page appears.	Pass	
2	Click on Special page under tools		Special page appears	Special page appears.	Pass	
3	Click on User Gamification profile under Other special pages section		User Gamification Profile appears	User Gamification Profile appears.	Pass	
4	Observe the User Gamification profile page		The page does not show any point related information when user has no points	User Gamification Profile for test account shows "No data found!"	Pass	

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail	Notes
5	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	Main page appears	Pass	
6	Perform a single edit to accumulate 50 points.		50 points are earned.	50 points are accumulated.	Pass	
7	Observe the point counts on top of the User Gamification Profile page		50 points are added to the user upon editing a page	50 points are shown in the user gamification profile.	Pass	
8	Observe the badge icons displayed at the top of the User Gamification Profile page		A bronze badge icon is displayed on the user profile upon earning 50 points	A bronze badge icon is displayed in the "Badges" column on the user gamification profile.	Pass	

2.2 Test Case TC_02.2: User with 100 total points earns a silver badge

Test Case ID: TC_02.2
Description: Test that if a user has 100 total points, then the user earns a silver badge
Requirements: F37 - A user will progress through different badge levels by earning a configurable amount of points
F38 - A user will earn badges in the following order: Bronze, Silver, Gold, Platinum
F46 - User with 100 total points shall earn a silver badge
Tester's Name: Kelli Corey
Prerequisites:

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail	Notes
1	Log in to the NASA MediaWiki environment using the same profile used in test case TC_02.1		The welcome page will be displayed.	The main page is displayed.	Pass	

2	Click on Special page under tools		Special page appears	Special page is displayed.	Pass	
3	Click on User Gamification profile under Other special pages section		User Gamification Profile appears	User gamification profile for test account appears.	Pass	
4	Verify that the point count on the top of the User Gamification profile page is 50.		A point count of 50 is displayed.	Total points listed for the test profile is 50 points.	Pass	
5	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	Main page appears	Pass	
6	Perform a single edit to accumulate 50 points.		50 points are earned.	50 points are accumulated.	Pass	
7	Observe the point counts on top of the User Gamification Profile page		50 points are added to the user upon editing a page for a total of 100 points	The total points displayed for the test account is 100 points.	Pass	
8	Observe the badge icons displayed at the top of the User Gamification Profile page		A silver badge icon is displayed on the user profile upon earning 100 points	A silver badge icon is displayed on the user gamification profile for the test account.	Pass	

2.3 Test Case TC_02.3: User with 200 total points earns a gold badge

Test Case ID: TC_02.3
Description: Test that if a user has 200 total points, then the user earns a gold badge
Requirements: F37 - A user will progress through different badge levels by earning a
configurable amount of points
F38 - A user will earn badges in the following order: Bronze, Silver, Gold,
Platinum
F47 - User with 200 total points shall earn a gold badge
Tester's Name: Kelli Corey

Prerequisites:

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Log in to the NASA MediaWiki environment using the same profile used in test case TC_02.1 and TC_02.2		The welcome page will be displayed.	The main page is displayed.	Pass	
2	Click on Special page under tools		Special page appears	Special page is displayed	Pass	
3	Click on User Gamification profile under Other special pages section		User Gamification Profile appears	User gamification profile is displayed	Pass	
4	Verify that the point count on the top of the User Gamification profile page is 100		A point count of 100 is displayed	Total points for the test user profile is 100 points	Pass	
5	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	Main page appears	Pass	
6	Perform a enough adds or edits to accumulate 100 points.		100 points are earned.	100 points are accumulated.	Pass	
10	Observe the point counts on top of the User Gamification Profile page		100 points are added to the user, bringing the total point count to 200	The total points displayed for the test user profile are 200 points	Pass	
11	Observe the badge icons displayed at the top of the User Gamification Profile page		A gold badge icon is displayed on the user profile upon earning 200 points	A gold badge is displayed for the test user profile.	Pass	

2.4 Test Case TC_02.4: User with 500 total points earns a platinum badge

Test Case ID: TC_02.4
Description: Test that if a user has 500 total points, then the user earns a platinum badge
Requirements: F37 - A user will progress through different badge levels by earning a configurable amount of points
F38 - A user will earn badges in the following order: Bronze, Silver, Gold, Platinum
F48 - User with 500 total points shall earn a platinum badge
Tester's Name: Kelli Corey
Prerequisites:

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Log in to the NASA MediaWiki environment using the same profile used in test case TC_02.1, TC_02.2, and TC_02.3		The welcome page will be displayed.	The main page is displayed	Pass	
2	Click on Special page under tools		Special page appears	Special page is displayed	Pass	
3	Click on User Gamification profile under Other special pages section		User Gamification Profile appears	User gamification profile page for the test user is displayed	Pass	
4	Verify that the point count on the top of the User Gamification profile page is 200		A point count of 200 is displayed	The point count for the test user is 200 points	Pass	
5	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	Main page appears.	Pass	
6	Perform a enough adds or edits to accumulate 300 points.		300 points are earned.	300 points are accumulated.	Pass	

				300 points are added to the user, bringing the total point count to 500	The total points displayed for the test user profile are 500 points	Pass	
7	Observe the point counts on top of the User Gamification Profile page						
8	Observe the badge icons displayed at the top of the User Gamification Profile page			A platinum badge icon is displayed on the user profile upon earning 500 points	A platinum badge is displayed for the test user gamification profile.	Pass	

2.5 Test Case TC_02.5: All earned badges are displayed in user's profile page

Test Case ID: TC_02.5
Description: Test that all earned badges are displayed on top of the user's profile page in a tabular format with the earned badge image
Requirements: F49 - All badges earned shall be displayed on top of the user's profile page in a tabular form with the earned badge images.
Tester's Name: Kelli Corey
Prerequisites:

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Log in to the NASA MediaWiki environment using the same profile used in test case TC_02.1, TC_02.2, TC_02.3, and TC_02.4		The welcome page will be displayed.	The main page is displayed.	Pass	
2	Click on Special page under tools		Special page appears	Special page appears.	Pass	
3	Click on User Gamification profile under Other special pages section		User Gamification Profile appears	The user gamification profile for the test user is displayed	Pass	

4	Verify that the point count on the top of the User Gamification profile page is 500.		A point count of 500 is displayed.	A point count of 500 is displayed for the test user	Pass	
5	Click on main page link on left menu bar in NASA MediaWiki page		Main Page appears	The main page appears	Pass	
6	Perform a enough adds or edits to accumulate 200 points.		200 points are earned.	200 points are accumulated.	Pass	
7	Observe the point counts on top of the User Gamification Profile page		2100 points are added to the user, for a total of 850 points	The total number of points for the test user is 850 points.	Pass	
8	Observe the badge icons displayed at the top of the User Gamification Profile page		A platinum badge, a gold badge, a silver badge, and a bronze badge are displayed	The user profile shows a platinum, a gold, a silver, and a bronze badge	Pass	

3.0 Test Suite 03: Leaderboard Behaviors and configurations

Following Test Cases should be executed to test all functional requirements associated with Leaderboard behavior and configurations feature.

3.1 Test Case TC_03.1: Leaderboard is visible in user's profile page

Test Case ID: TC_03.1
Description: Test that the leaderboard is visible in user's profile page
Requirements: F39 - On navigating to the user's profile page, a leaderboard is displayed containing data related to the user's activity on the wiki and the user's status related to other users of the wiki
F53 - Leaderboard will only be visible in user profile page
Tester's Name: Charles Milk (Chuck)
Prerequisites: The current user must have an account in the database and php must be running on the user's local machine.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Open a command prompt at the Administrator level		Command prompt window is displayed.	Command prompt window is displayed.	Pass	
2	Start PHP on the local machine by executing the following command: runphp.cmd		Run command executes. The last 2 lines in the command prompt window display: "IIS Express is running Enter 'Q' to stop IIS Express"	Command prompt window displays: "IIS Express is running Enter 'Q' to stop IIS Express"	Pass	
3	Open a browser and go to "http://localhost:8080"		Wikimedia main page is displayed.	Wikimedia main page is displayed.	Pass	

#						
4	Examine the Wikimedia Main Page and verify that the Leaderboard is not displayed (F53).		The Leaderboard is not displayed.	The Leaderboard is not displayed.	Pass	
5	Login to the user's account and verify that the user's username appears on the top line of the display.		The user's username appears on the top line of the display.	The user's username appears on the top line of the display.	Pass	
6	In the Tools menu on the left side of the display, select "Special Pages".		The "Special Pages" page is now displayed	The "Special Pages" page is displayed	Pass	
7	Examine the "Special Pages" page and verify that the Leaderboard is not displayed (F53).		The Leaderboard is not displayed.	The Leaderboard is not displayed.	Pass	
8	Scroll down to the "Other Special Pages" section and select the "User Gamification Profile" link.		The User Gamification Profile page is displayed	The User Gamification Profile page is displayed	Pass	
9	Examine the "User Gamification Profile" page and verify that the Leaderboard is displayed (F39).		The Leaderboard is displayed.	The Leaderboard is displayed.	Pass	
10	Examine the Leaderboard and verify that it contains data related to the user's activity on the wiki (F39)		The Leaderboard contains data related to the user's activity on the wiki	The Leaderboard contains data related to the user's activity on the wiki	Pass	

3.2 Test Case TC_03.2: Leaderboard displays username, Added post count, edit count, points earned, and badges

Test Case ID: TC_03.2
Description: Test that the leaderboard displays username, added post count, edit count, points earned, and badges
Requirements: F50 - Add count, edit count, points earned, and the user's position among
              others will be displayed in leaderboard

Tester's Name: Charles Milk (Chuck)

Prerequisites: The database must contain values for current user to include added post count, edit count, points earned, and badges.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Open a command prompt at the Administrator level		Command prompt window is displayed.	Command prompt window is displayed.	Pass	
2	Start PHP on the local machine by executing the following command: runphp.cmd		Run command executes. The last 2 lines in the command prompt window display: "IIS Express is running Enter 'Q' to stop IIS Express"	Command prompt window displays: "IIS Express is running Enter 'Q' to stop IIS Express"	Pass	
3	Open a browser and go to "http://localhost:8080"		Wikimedia main page is displayed.	Wikimedia main page is displayed.	Pass	
4	Login to the user's account and verify that the user's username appears on the top line of the display.		The user's username appears on the top line of the display.	The user's username appears on the top line of the display.	Pass	
5	In the Tools menu on the left side of the display, select "Special Pages".		The "Special Pages" page is now displayed	The "Special Pages" page is displayed	Pass	
6	Scroll down to the "Other Special Pages" section and select the "User Gamification Profile" link.		The User Gamification Profile page is displayed	The User Gamification Profile page is displayed	Pass	
7	Examine the "User Gamification Profile" page and verify that the Leaderboard is displayed.		The Leaderboard is displayed.	The Leaderboard is displayed.	Pass	

				Expected	Actual	Status	
8	Examine the Leaderboard and verify that it contains the user's username.			The Leaderboard contains the user's username.	The Leaderboard contains the user's username.	Pass	
9	Examine the Leaderboard and verify that it contains the user's Added Post Count (F50).			The Leaderboard contains the user's Added Post Count.	The Leaderboard contains the user's Added Post Count.	Pass	
10	Examine the Leaderboard and verify that it contains the user's Edited Post Count (F50).			The Leaderboard contains the user's Edited Post Count.	The Leaderboard contains the user's Edited Post Count.	Pass	
11	Examine the Leaderboard and verify that it contains the user's Points Earned Count (F50).			The Leaderboard contains the user's Points Earned Count.	The Leaderboard contains the user's Points Earned Count.	Pass	
12	Examine the Leaderboard and verify that it contains a display of the badges the user has earned.			The Leaderboard contains a display of the badges the user has earned.	The Leaderboard contains a display of the badges the user has earned.	Pass	

3.3 Test Case TC_03.3: Leaderboard displays user's position based on points

Test Case ID: TC_03.3
Description: Test that the leaderboard displays users' position in the leaderboard based on points
Requirements: F50 - Add count, edit count, points earned, and the user's position among others will be displayed in leaderboard.
   Tester's Name: Charles Milk (Chuck)
Prerequisites: The database must contain at least 5 other users. Two of these users must have more total points than the current user, one user should have an identical total point count and two users should have less total points than the current user.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Open a command prompt at the Administrator level		Command prompt window is displayed.	Command prompt window is displayed.	Pass	
2	Start PHP on the local machine by executing the following command: runphp.cmd		Run command executes. The last 2 lines in the command prompt window display: "IIS Express is running Enter 'Q' to stop IIS Express"	Command prompt window displays: "IIS Express is running Enter 'Q' to stop IIS Express"	Pass	
3	Open a browser and go to "http://localhost:8080"		Wikimedia main page is displayed.	Wikimedia main page is displayed.	Pass	
4	Select the "Create Account" link from the top right corner of the resulting display.		The Create Account page is displayed.	The Create Account page is displayed.	Pass	
5	Enter a user name of "test1" and a password of "test", confirm the password and select "Create your account"		The new account is created.	The new account is created.	Pass	
6	Select "logout" from the top right corner of the display and repeat the above step to create 6 additional accounts named test2 thru test7, all with the same password "test".		The new accounts are created.	The new accounts are created.	Pass	
7	Login to the "test1" account, perform enough adds and edits to accumulate 250 points, and log out.		The test1 account contains 250 points.	The test1 account contains 250 points.	Pass	
8	Login to the "test2" account, perform enough adds and edits to accumulate 300 points, and log out.		The test2 account contains 300 points.	The test2 account contains 300 points.	Pass	

9	Login to the "test3" account, perform enough adds and edits to accumulate 350 points, and log out.		The test3 account contains 350 points.	The test3 account contains 350 points	Pass	
10	Login to the "test4" account, perform enough adds and edits to accumulate 400 points, and log out.		The test4 account contains 400 points.	The test4 account contains 400 points.	Pass	
11	Login to the "test5" account, perform enough adds and edits to accumulate 450 points, and log out.		The test5 account contains 450 points.	The test5 account contains 450 points.	Pass	
12	Login to the "test6" account, perform enough adds and edits to accumulate 500 points, and log out.		The test6 account contains 500 points.	The test6 account contains 500 points.	Pass	
13	Login to the "test7" account, perform enough adds and edits to accumulate 550 points, and log out.		The test7 account contains 550 points.	The test7 account contains 550 points.	Pass	
14	Login to the main user account, perform enough adds and edits to accumulate 400 points.		The main user account contains 400 points.	The main user account contains 400 points.	Pass	
15	In the Tools menu on the left side of the display, select "Special Pages".		The "Special Pages" page is now displayed	The "Special Pages" page is displayed	Pass	
16	Scroll down to the "Other Special Pages" section and select the "User Gamification Profile" link.		The User Gamification Profile page is displayed	The User Gamification Profile page is displayed	Pass	
17	Examine the "User Gamification Profile" page and verify that the Leaderboard is displayed.		The Leaderboard is displayed.	The Leaderboard is displayed.	Pass	
18	Examine the Leaderboard and verify that it displays users' position in the leaderboard based on total points earned. (F50).		The user's position is displayed in the leaderboard based on total points earned.	The user's position is displayed in the leaderboard based on total points earned.	Pass	

3.4 Test Case TC_03.4: Leaderboard shows other users with 100 points over or below.

Test Case ID: TC_03.4
Description: Test that the leaderboard displays other users with 100 points over or below the logged in user.
Requirements: F51 - Other users with 100 points more or less than the current user will be displayed in the leaderboard
Tester's Name: Charles Milk (Chuck)
Prerequisites: Assuming the user has X number of total points, the database must contain 7 other users with total point counts as shown below:

User	Total Points
A	X + 150
B	X + 100
C	X+50
D	X
E	X - 50
F	X - 100
G	X - 150

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Open a command prompt at the Administrator level		Command prompt window is displayed.	Command prompt window is displayed.	Pass	
2	Start PHP on the local machine by executing the following command: runphp.cmd		Run command executes. The last 2 lines in the command prompt	Command prompt window displays: "IIS Express is	Pass	

			window display: "IIS Express is running Enter 'Q' to stop IIS Express"	running Enter 'Q' to stop IIS Express"		
3	Open a browser and go to "http://localhost:8080"		Wikimedia main page is displayed.	Wikimedia main page is displayed.	Pass	
4	Select the "Create Account" link from the top right corner of the resulting display.		The Create Account page is displayed.	The Create Account page is displayed.	Pass	
5	Enter a user name of "test1" and a password of "test", confirm the password and select "Create your account"		The new account is created.	The new account is created.	Pass	
6	Select "logout" from the top right corner of the display and repeat the above step to create 6 additional accounts named test2 thru test7, all with the same password "test".		The new accounts are created.	The new accounts are created.	Pass	
7	Login to the "test1" account, perform enough adds and edits to accumulate 250 points, and log out.		The test1 account contains 250 points.	The test1 account contains 250 points.	Pass	
8	Login to the "test2" account, perform enough adds and edits to accumulate 300 points, and log out.		The test2 account contains 300 points.	The test2 account contains 300 points.	Pass	
9	Login to the "test3" account, perform enough adds and edits to accumulate 350 points, and log out.		The test3 account contains 350 points.	The test3 account contains 350 points	Pass	
10	Login to the "test4" account, perform enough adds and edits to accumulate 400 points, and log out.		The test4 account contains 400 points.	The test4 account contains 400 points.	Pass	
11	Login to the "test5" account, perform enough adds and		The test5 account contains 450 points.	The test5 account	Pass	

	edits to accumulate 450 points, and log out.			contains 450 points.		
12	Login to the "test6" account, perform enough adds and edits to accumulate 500 points, and log out.		The test6 account contains 500 points.	The test6 account contains 500 points.	Pass	
13	Login to the "test7" account, perform enough adds and edits to accumulate 550 points, and log out.		The test7 account contains 550 points.	The test7 account contains 550 points.	Pass	
14	Login to the main user account, perform enough adds and edits to accumulate 400 points.		The main user account contains 400 points.	The main user account contains 400 points.	Pass	
15	In the Tools menu on the left side of the display, select "Special Pages".		The "Special Pages" page is now displayed	The "Special Pages" page is displayed	Pass	
16	Scroll down to the "Other Special Pages" section and select the "User Gamification Profile" link.		The User Gamification Profile page is displayed	The User Gamification Profile page is displayed	Pass	
17	Examine the "User Gamification Profile" page and verify that the Leaderboard is displayed.		The Leaderboard is displayed.	The Leaderboard is displayed.	Pass	
18	Examine the leaderboard and note of the current user's total point value		Leaderboard displays the current user's relative position.	Leaderboard displays the current user's relative position	Pass	
19	Inspect the leaderboard and note the total points value of the top user		Top user's point value is noted.	Top user's point value is noted.	Pass	
20	Inspect the leaderboard and note the total points value of the bottom user.		Bottom user's point value is noted.	Bottom user's point value is noted.	Pass	
21	Verify that the leaderboard only displays other users with total points within 100 points of the current user (F51).		The leaderboard only displays other users with total points within 100 points of the current user.	The leaderboard only displays other users with total points within 100	Pass	

				points of the current user.		

3.5 Test Case TC_03.5: Leaderboard - Clicking Add count shows name of the pages created

Test Case ID: TC_03.5
Description: Test that the added post count is clickable and clicking the add count shows the name of the pages created by the user
Requirements: F40 - The user will be able to display the name of the pages the user has created.
F52 - Users shall be able to click on the edit count to view the name of the pages created
Tester's Name: Charles Milk (Chuck)
Prerequisites: The database must contain the names of several pages created by the current user.

Test Script:

Step #	Test Steps	Test Data	Expected Result	Actual Result	Pass/ Fail	Notes
1	Open a command prompt at the Administrator level		Command prompt window is displayed.	Command prompt window is displayed.	Pass	
2	Start PHP on the local machine by executing the following command: runphp.cmd		Run command executes. The last 2 lines in the command prompt window display: "IIS Express is running Enter 'Q' to stop IIS Express"	Command prompt window displays: "IIS Express is running Enter 'Q' to stop IIS Express"	Pass	
3	Open a browser and go to "http://localhost:8080"		Wikimedia main page is displayed.	Wikimedia main page is displayed.	Pass
